

HALOTECH®

Compactors

BALEPAC®

HALOTECH INDUSTRIES: the highest quality at a competitive price

With Halotech®, our customers can count on our cutting-edge agricultural and industrial compactors at a price significantly lower than other models on the market.

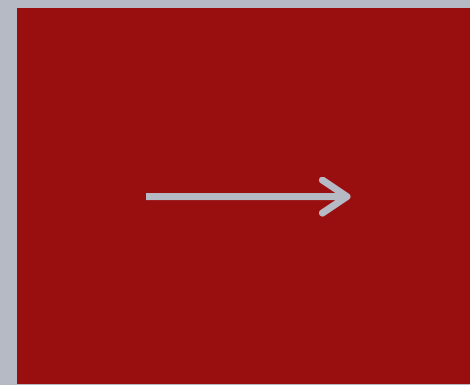

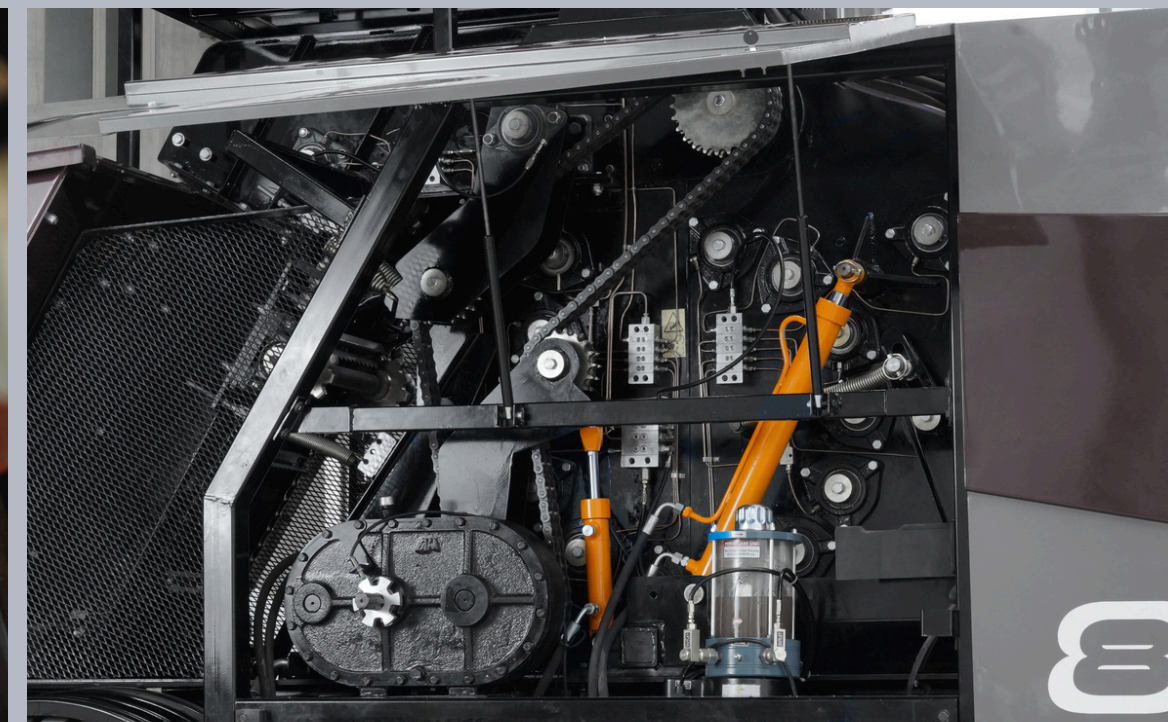

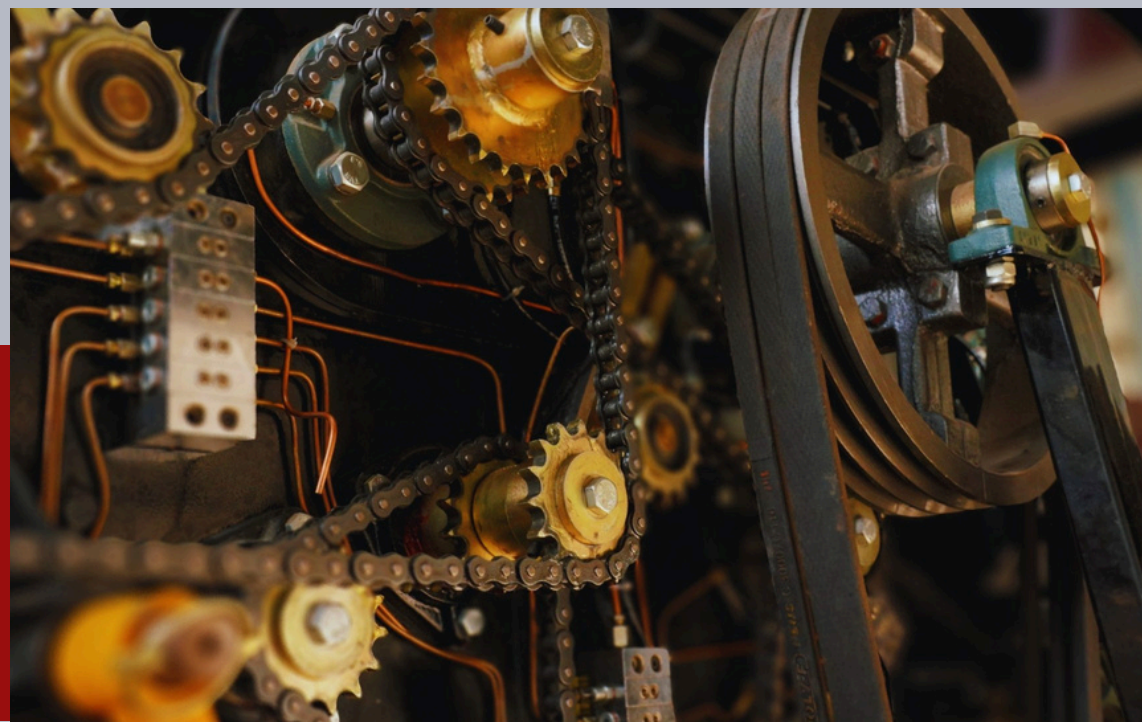

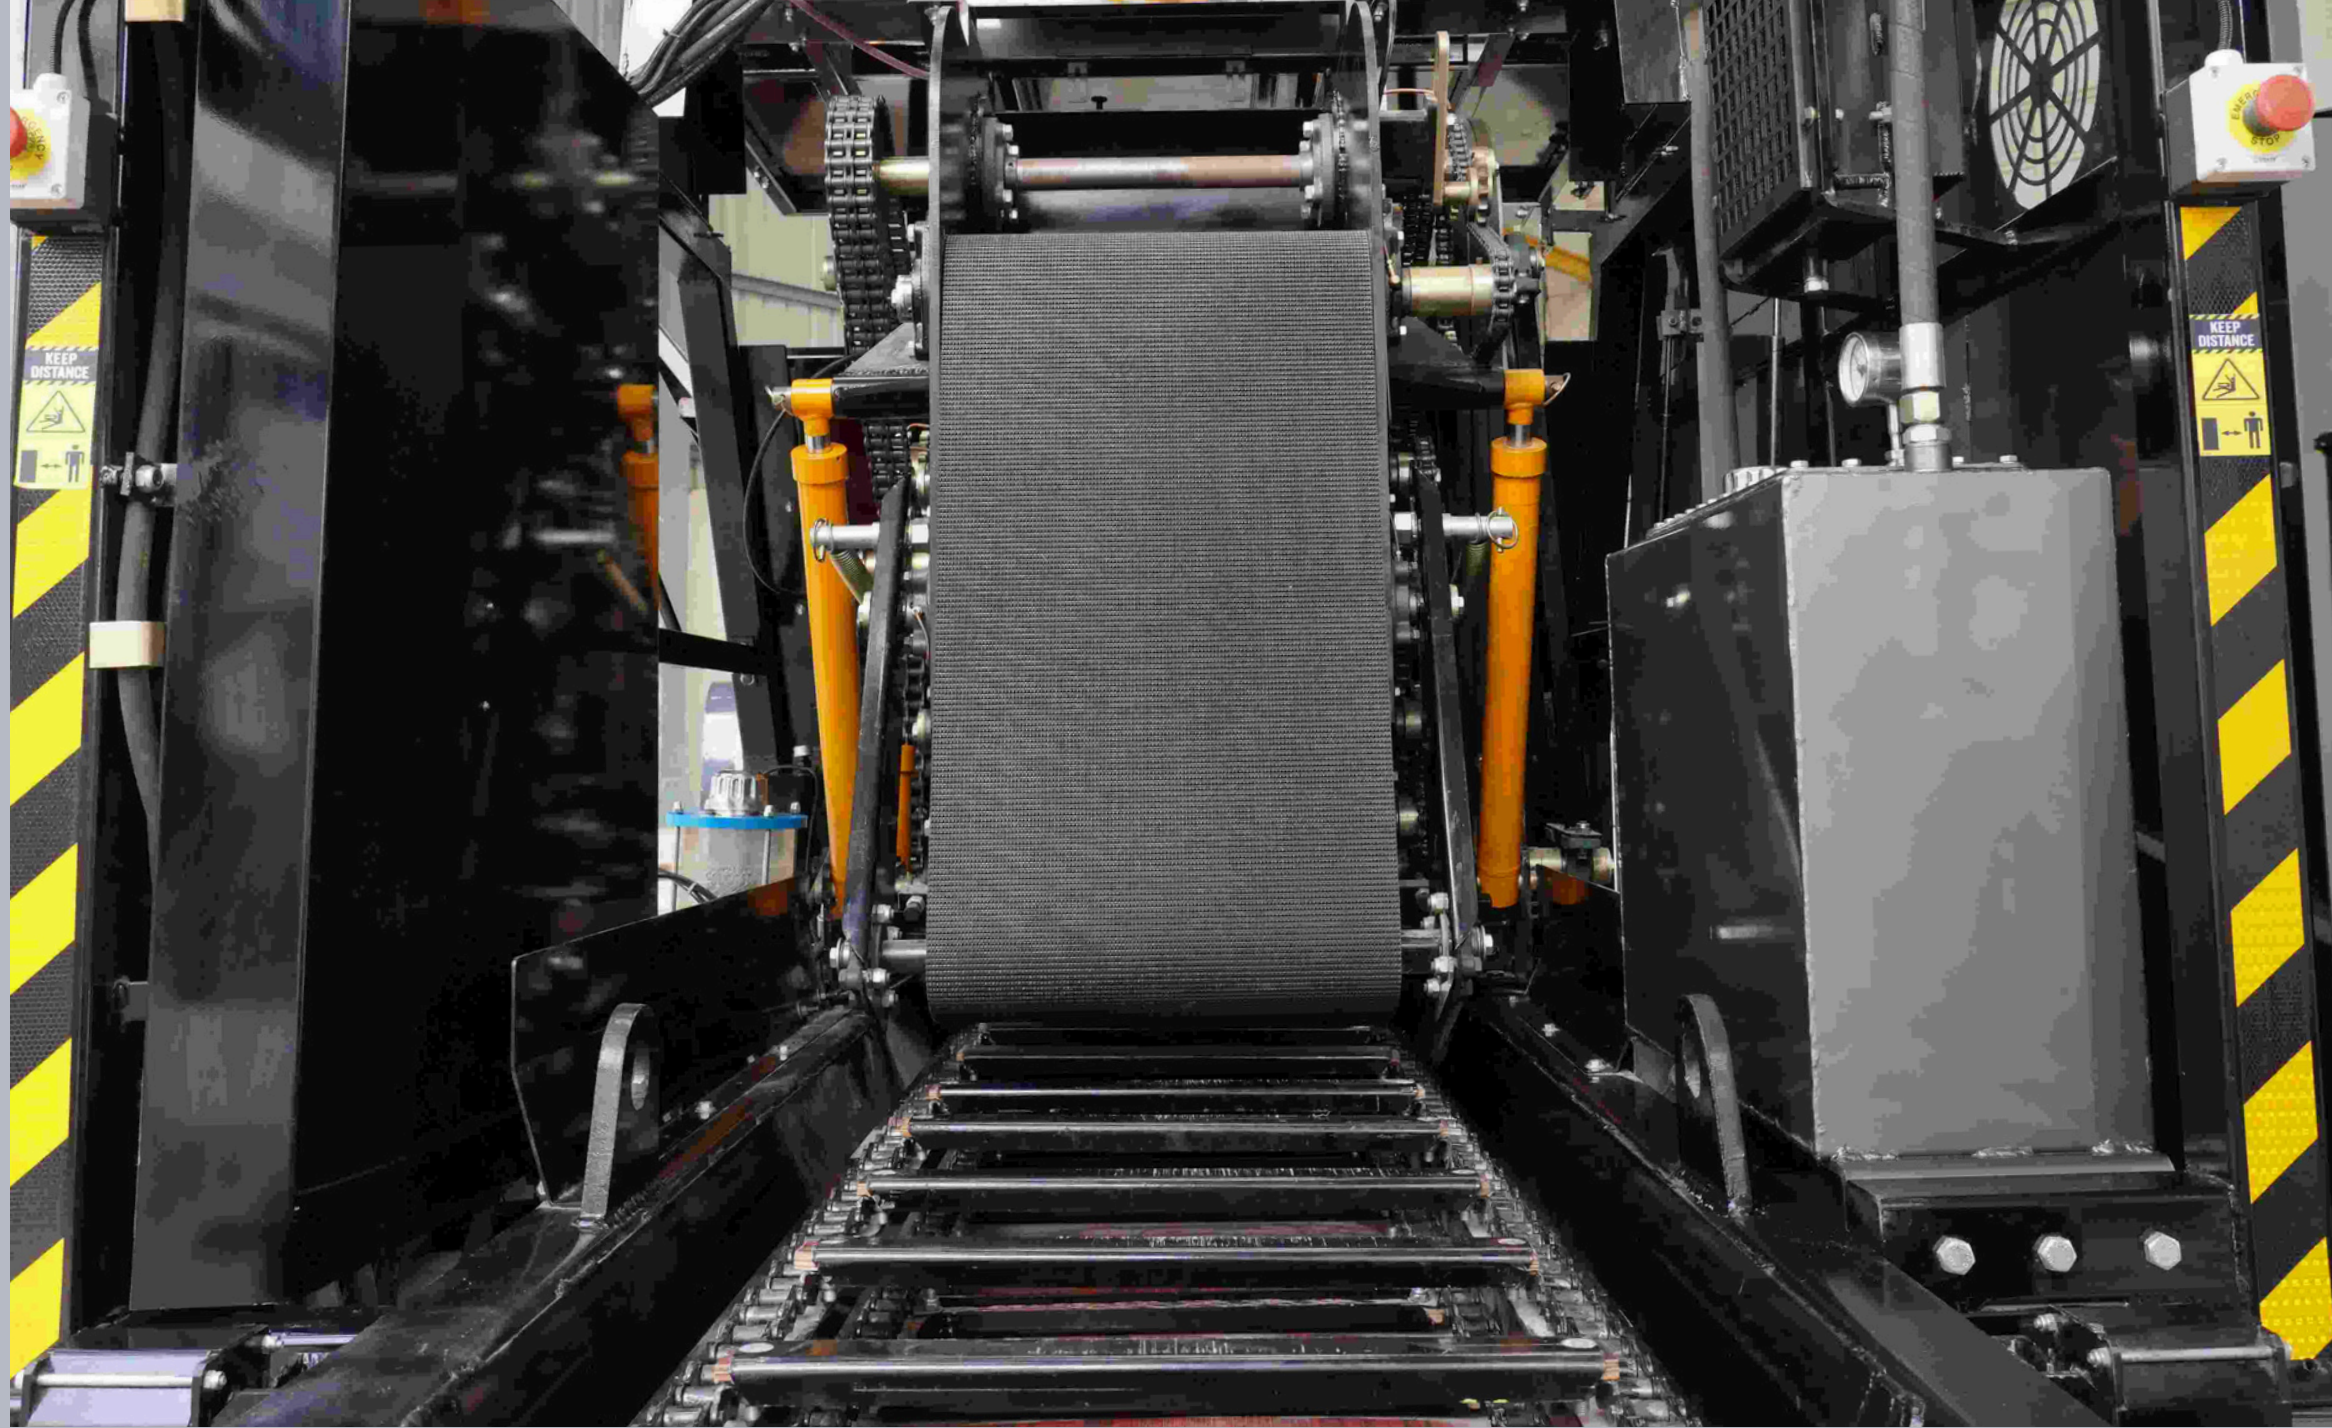

Our robust and high-performance machines ensure optimal compaction, preserving forage quality, reducing losses and easing storage & handling of other bulk materials.

By choosing Halotech, you invest in efficiency and profitability.

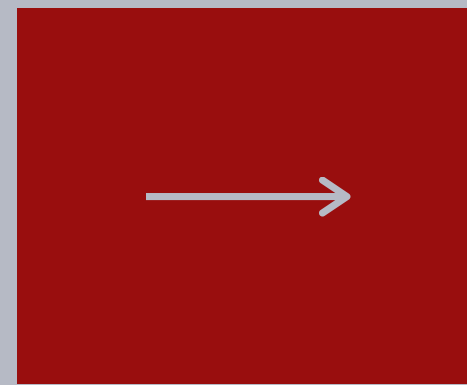

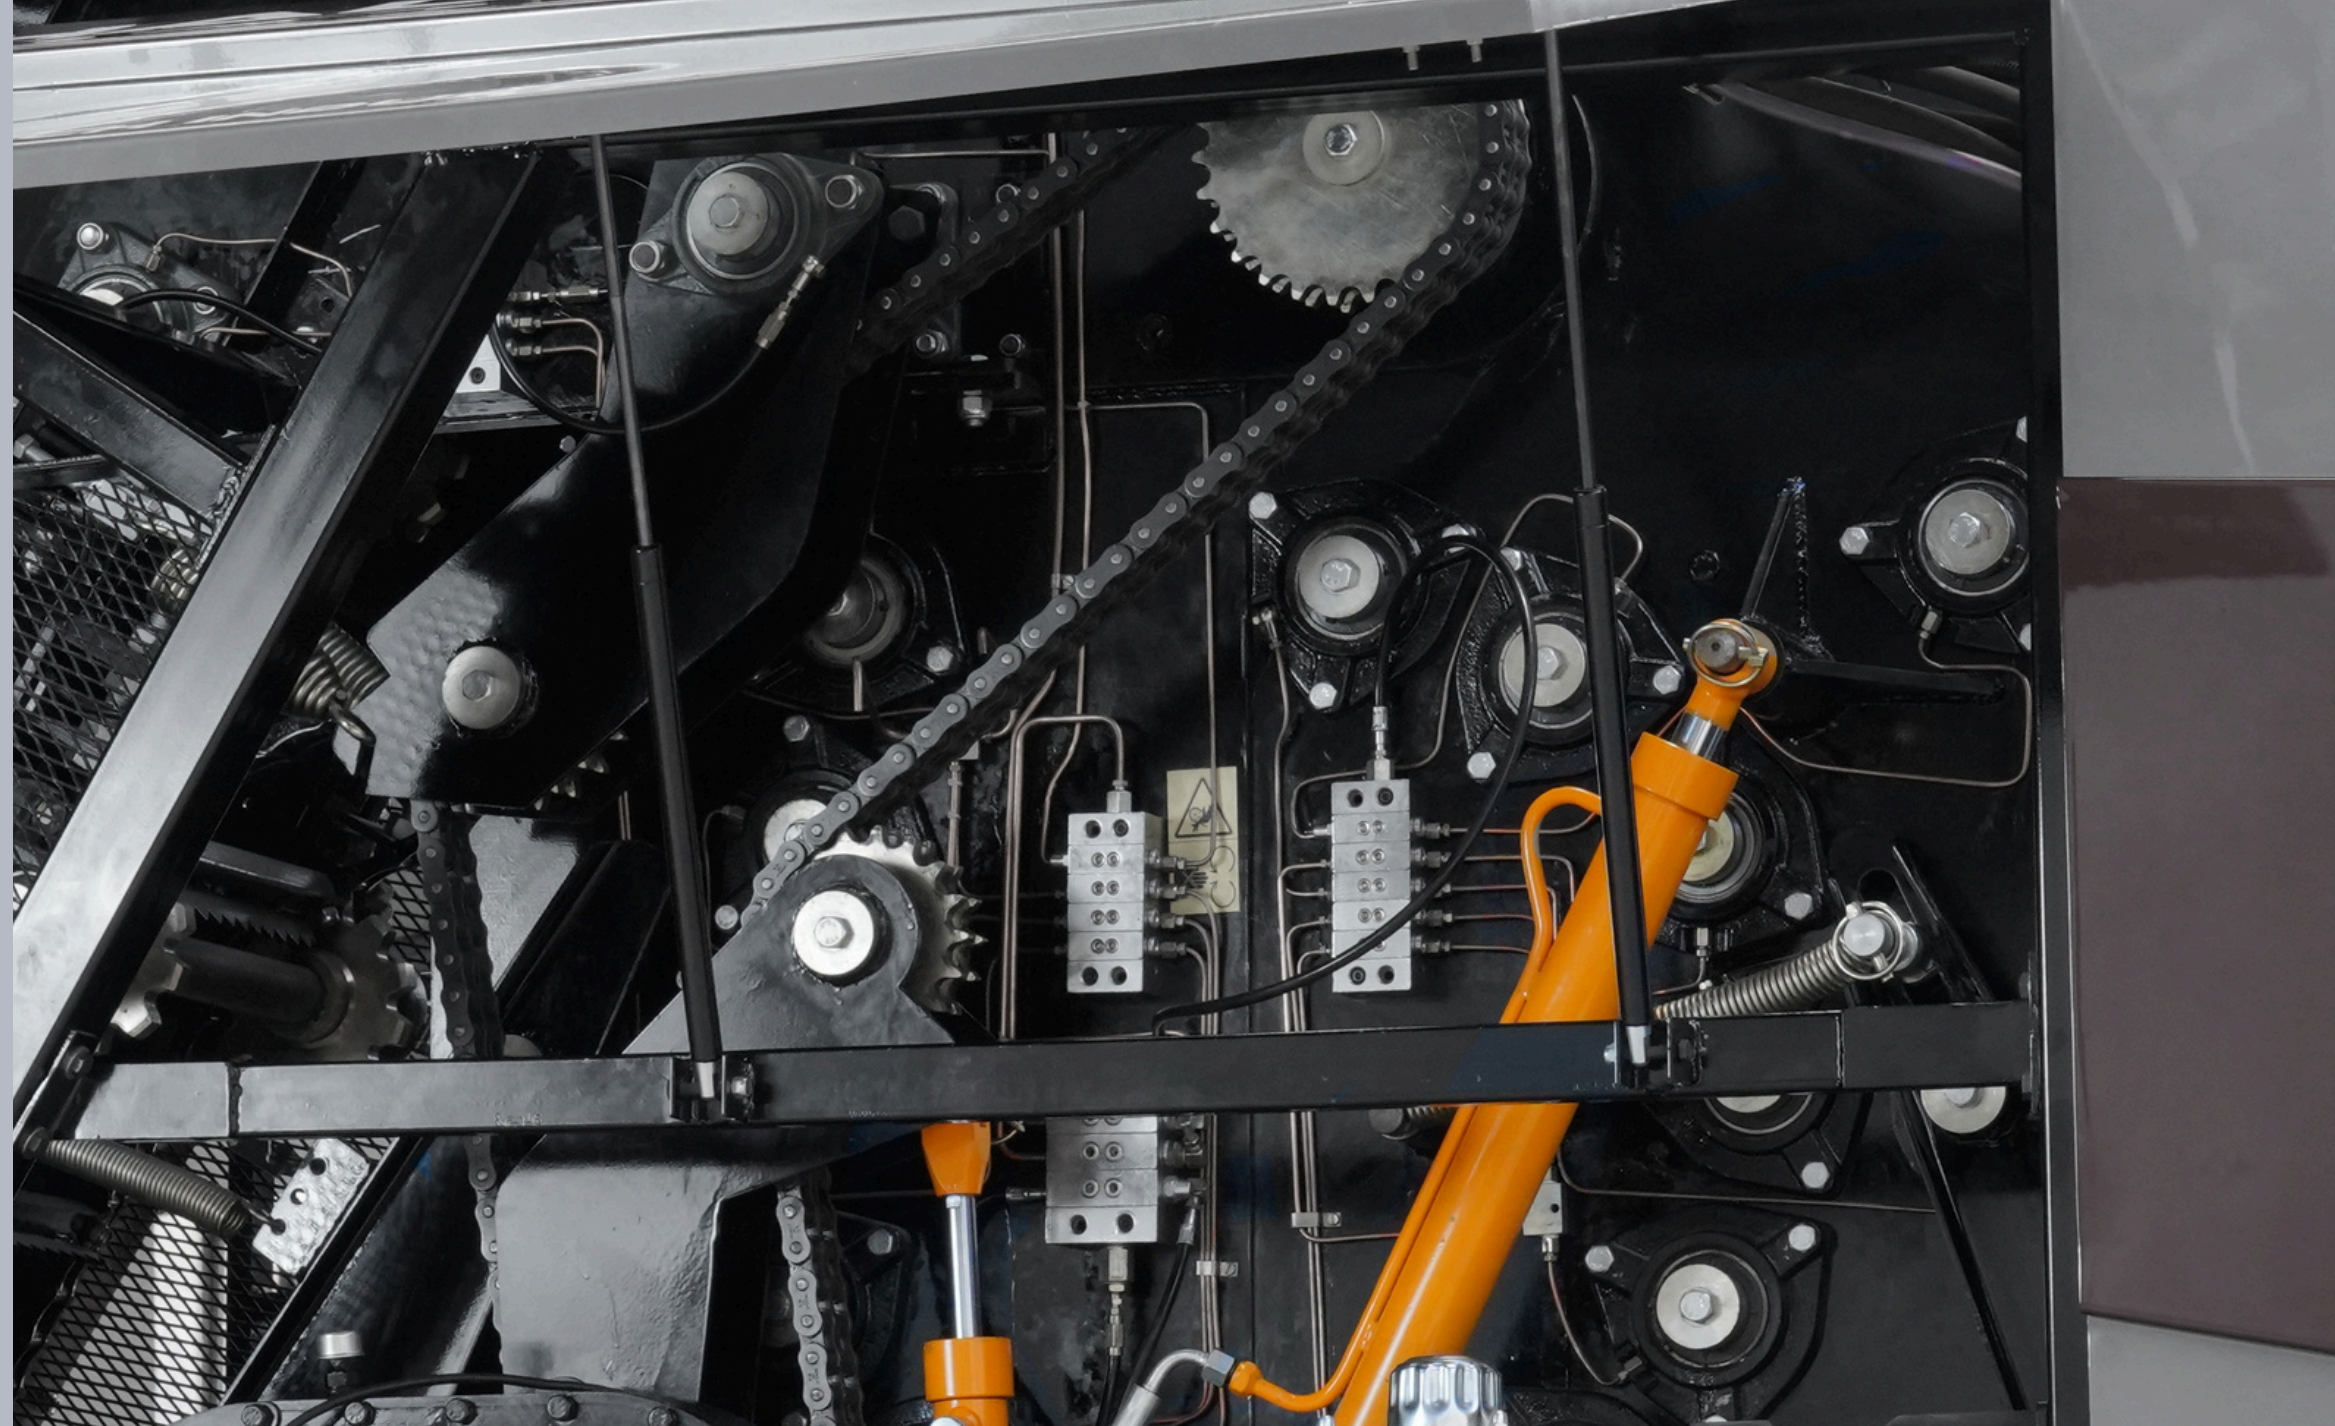

Perfect compression, excellent silage.

The compaction chamber is the heart of every compactor. Aware of this, we have designed and manufactured it with the best components available on the world market, to obtain perfect compression and guarantee excellent silage quality.

Reduce maintenance costs and increase the life of your machine.

The uncompromising quality of the components, the automatic lubrication, the real-time alarm system for potential problems, guarantee prolonged efficiency, minimal maintenance and therefore an operational performance of absolute excellence.

Perfect compression, excellent silage.

BalePac® compactors can handle a wide range of products including: maize/corn silage, Napier silage, sorghum, wool/cotton, TMR (Total mixed ration), sugar beet pulp, bagasse, MSW, and oat silage.

**HIGH BALE
DENSITY**

CONSISTENCY**

**LOW COST
PER BALE**

Transparency and control: Diet under control.

Optimize your animal feed. Our traceability system helps you make informed decisions about your forage management.

Thanks to the detailed data provided by the QR code and NIR analysis (optional), you can customize your animals' feed, improving production performance and well-being.

BalePac® COMPACTORS

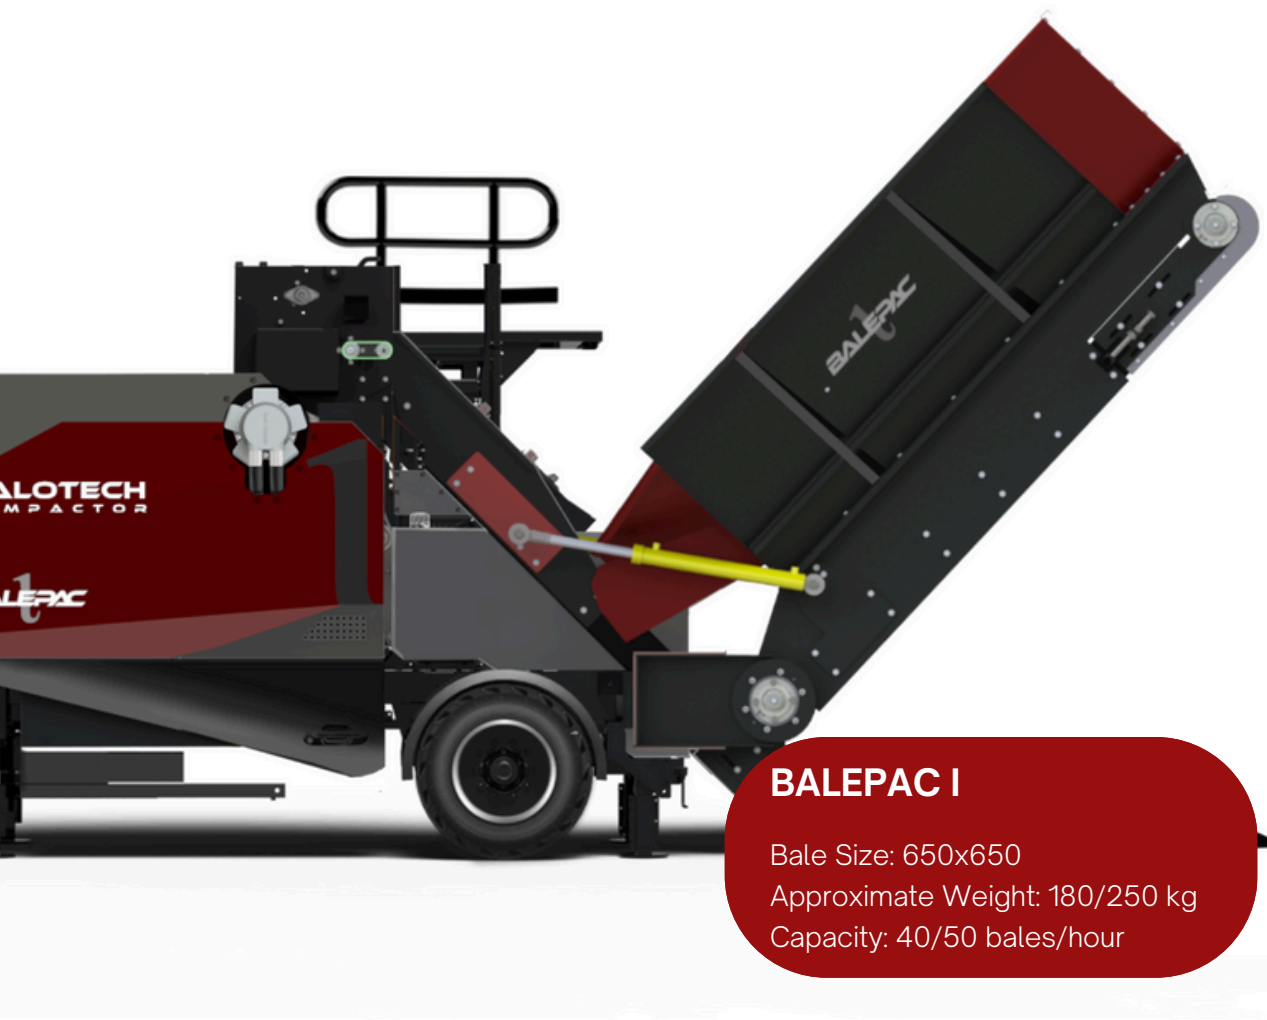

HALOTECH® is not limited to standard 1200mm bales. Our range also includes models designed for smaller bale sizes, offering a tailor-made solution for every need. This approach allows you to invest in a high-quality compactor without necessarily having to opt for the largest and most expensive model, making this technology accessible to everyone, from farmers to small business owners.

BALEPAC S

Bale Size: 500x600
Approximate Weight: 90/125 kg
Capacity: 4060 bales/hour

BALEPAC I

Bale Size: 650x650
Approximate Weight: 180/250 kg
Capacity: 40/50 bales/hour

BALEPAC G

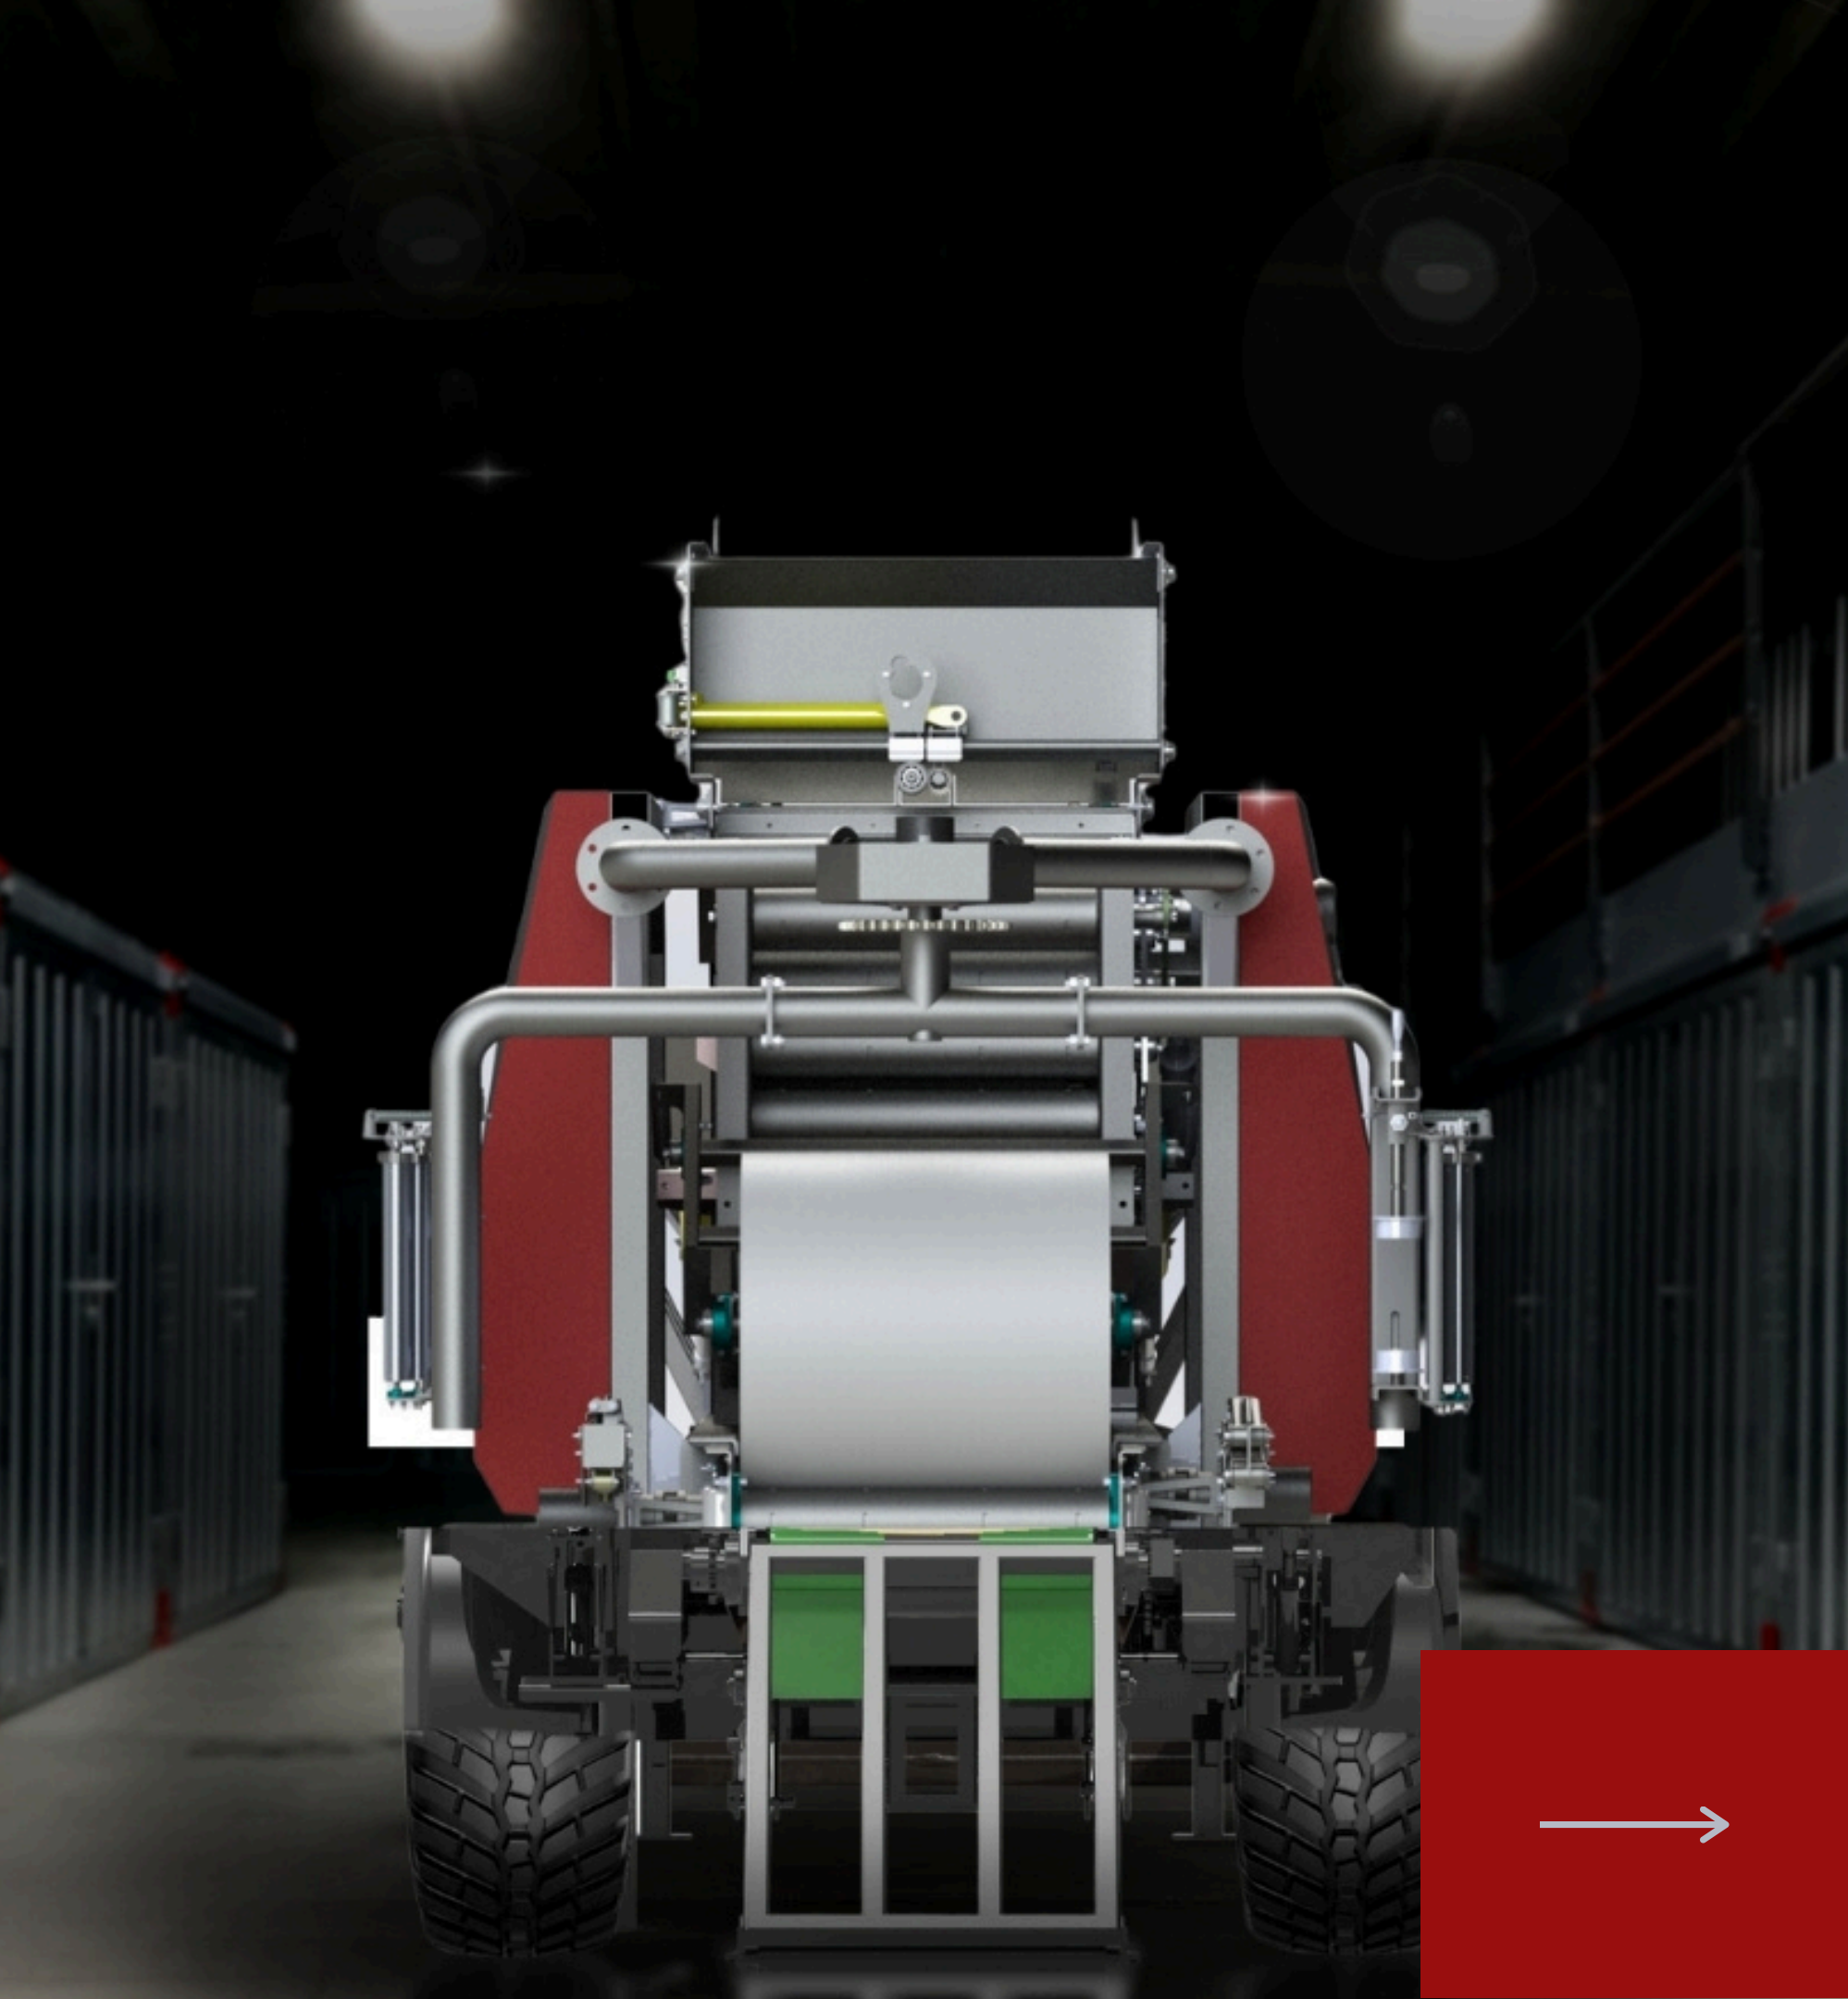

Bale Size: 950x850
Approximate Weight: 350/500 kg
Capacity: 35/45 bales/hour

BALEPAC K

Bale Size: 1200x1200
Approximate Weight: 650/1000 kg
Capacity: 35/40 bales/hour

Technical Specifications

Modelli	S	I	G	K
Bale Size	500x600	650x650	850x850	1200x1200
Bale Weight	100-125 kg	150-200 kg	250-550 kg	400-1200 kg
Production/hour	40-60 bales*	40-50 bales*	35-45 bales*	34-40 bales*
Machine Control	Automatic	Automatic	Automatic	Automatic
Functioning	Tractor**	Tractor**	Tractor**	Tractor**
Required Power	30 kw (min)	45 kw (min)	55 kw (min)	75 kw (min)
Tractor Power	50 hp	65 hp	90 hp	120 hp
Dimensions	6059x2075x2835	8100X2800X2835	9100x3852x2800	10710x4023x3200
Machine Weight	4.500 kg	4.500 kg	7.100 kg	9.200 kg

*Bale weight depending upon the dry matter of the material.

** An electric motor is available as an option for operation without a tractor
